European Union

THE CONTINUITY PROJECT

Reinforced by the Covid-19 pandemic, there is a need for companies to **avoid the interruption of the supply of their goods and services**, especially in times of crisis. The outdated and often inefficient risk management programmes need to be developed to allow business procedures to be more resilient.

The project aims at creating an appropriate VET, horizontal to all sectors and independent from the geographical and political context, intrinsically transnational, able to train the Business Continuity as a professional figure with in-depth knowledge on this topic.

Through the development of an online platform, the consortium aims to produce and provide materials on 5 learning units:

- **Organizational Resilience**
- **Business Continuity**
- **Crisis Management**
- **Supply Chain Resilience**
- **Cyber Resilience**

RESULTS

Preliminary Evaluation

Training Modules

Online Platform

OBJECTIVES

1

Promote cooperation between EU organizations and training providers within the Business Continuity environment.

2

Develop Business Continuity management programmes focused on the acquisition of new professional skills and competences.

3

Develop new and innovative approaches to improve the quality and relevance of training provision.

4

Promote the provision of transversal skills for those responsible for Business Continuity measures.

TARGET GROUPS

Higher Education Institutions

SME's Business Managers

VET Centres & Training Centres

Target groups will have access to a platform with materials to develop their skills regarding the 5 learning units. They will also be assessed on their knowledge and will benefit from a certificate on the modules completed.
